## ABOUT THE STATIONS

Sitting at the entrance to the Township's Municipal Complex along Township Road, Station 3 is the Fire Department's Fire and Rescue Headquarters. About four miles away, Station 73 in Holland provides primary fire and rescue services to the people of that area of Northampton Township. The new stations are an investment in the public safety of Northampton and being constructed to meet the highest standard of safety for our first responders in addition to longevity. These new stations replace two old firehouses and are in addition to Station 83 in Churchville.
